I opted for (2018) to make it easier.

It's now live: <https://www.epa.gov/pfas/site-specific-information>

If we change it to February, we need to update the statement to say February as well.

Christina – thank you SO much.

Rick – what should the document be dated? March 2018?

No worries, I can do it. I just wanted to check before running it through the application.

Rick – is it?
If not, Christina – can you do it there? Is that too much work?
I just don't know who is in today in the regional office who can do it.

Subject: FW: GenX sampling results

Christina, can you post the attached PDF under the Washington Works bullet on:
<https://www.epa.gov/pfas/site-specific-information>

Let's call the PDF: Chemours Company well sampling results (March 2018)

Does that work for folks?

If so, Christina, let us know once it's up.

Subject: FW: GenX sampling results

Andrea,

Please see attached table for GenX (HFPO-DA) sampling results for the 14 public and private water supplies in West Virginia and Ohio.

Is it possible to get it posted onto the website soon?

If so, we may still be able to make the notifications today – please advise.

Thank you!
